BAA FIXTURES FROM WAVE LIGHTING

At a time when domestic sourcing and quality assurance are more important than ever, Wave Lighting stands out by keeping manufacturing right here at home. With a comprehensive catalog of Buy American Act (BAA) Compliant Fixtures, Wave Lighting offers spec-grade outdoor lighting solutions that meet federal requirements without sacrificing style, performance, or durability.

Proud to represent products that are made where it matters...right here in the USA.

NEW PARTNERSHIP WITH MEOMI LIGHTING

The Reeves Company is now proudly representing Meomi Lighting, a lighting manufacturer known for redefining what it means to balance design, quality, and functionality.

From linear suspended luminaires to bold wall sconces to decorative chandeliers, Meomi Lighting delivers meticulously engineered fixtures that don't just light up a space, they shape it. Their high-performance customizable optics are made to match your projects' specific needs and aesthetic.

BL LIGHTING HAS KEPT IT LIT SINCE 1986

Specializing in innovative linear, accent, and specialty lighting systems, BL Lighting has been pushing the boundaries of design and performance for over 40 years. Since 1986, they have been creating LED systems tailored to unique architectural needs.

With a selection of products such as LED Neon, Optical Fiber, LED Tape, and Controls, BL Lighting offers design forward lighting that performs in the toughest conditions without sacrificing aesthetic appeal. Whether it's under a bridge, around a pool, or across the ceiling of a high-end retail space, their products are engineered to bring creativity to life, safely and beautifully.
